

WHYI JUN (JAY) KIM

GTM Recruiter | Japan & Korea | Enterprise SaaS & AI

[linkedin.com/in/whyijun-jaykim](https://www.linkedin.com/in/whyijun-jaykim) · Tokyo, Japan

Summary

Trilingual (Japanese, Korean, English) GTM recruiter with 9+ years across Japan and Korea, including 5 years in-house at Salesforce and Anthropic. Thought partner to Country Managers, VPs and APAC leaders on AE, SE, partner and leadership hiring, from market mapping and search strategy to offer close. Delivered 102% of the 2025 hiring target at Salesforce, set up Japan recruiting at Anthropic from an early stage, and builds data and AI-enabled workflows that make hiring faster and easier to measure.

Key Achievements

- ◇ **102% of Hiring Target**
Delivered 102% of the 2025 annual hiring target at Salesforce Japan.
- ◇ **Faster Korea Hiring**
Korea referral fast-track lifted first-round interview rates 12% and cut time-to-hire by 5 days.
- ◇ **#2 Recruiter by Hires**
Ranked #2 in Japan/Korea by external hires in Q2 2025: 19 hires vs. a 10.1 team average.
- ◇ **Japan/Korea Build-Out**
Owned 10+(Max 25+) concurrent searches during Anthropic and Salesforce's JP/KR buildout.

Experience

Anthropic Japan

GTM Recruiter

Tokyo, Japan

05/2026 - Present

- Owned 8+ concurrent searches during Anthropic's early Japan/Korea build-out, spanning Applied AI Architects, Applied AI Engineers, Partnerships and leadership roles including Head of Partnerships.
- Delivered Anthropic Japan's first Partner Architect hire and 1 accepted offer, with 5 more candidates in final-round interviews.
- Advised Japan department heads, APAC leadership and global functional leaders on search strategy, calibration and market intelligence, adapting global hiring bars to the Japan talent market.
- Set up Japan recruiting operations from an early stage: pipeline strategy, operating processes and an agency engagement model built for the local market.
- Built Applied AI and Partner Architect pipelines through AI-assisted market mapping, backchannel referrals and sourcing partnerships with global recruiting teams.
- Built internal AI tools with the global recruiting team for talent-market mapping, ATS workflow customization and automated candidate triage.

Salesforce Japan

Senior Employee Recruiter

Tokyo, Japan

09/2021 - 05/2026

- Led full-cycle GTM hiring across Japan and Korea for Account Executives, Solution Engineers, Industry Advisors, Partner Account Managers and Product Marketing, plus Technical Architects, Support, Legal and Operations, carrying an average of 15 concurrent reqs from IC to VP level during the recent 12 months.
- Delivered 102% of the 2025 annual hiring target and 92%+ on-time fulfillment in 2024; ranked #2 recruiter in Japan/Korea by external hires in Q2 2025 (19 vs. a 10.1 team average).
- Thought partner to VPs, Country Managers and functional leaders on role design, leveling, interview calibration and market-specific talent strategy.
- Designed and launched a Korea referral fast-track, raising first-round interview rates 12% and cutting average time-to-hire by 5 days.
- Built Tableau dashboards for funnel health, bottlenecks and hiring forecasts, plus Slack workflow automations; led AI enablement that drove roughly 2.5x AI-tool adoption across recruiting.
- Ran high-touch candidate engagement from first outreach to close across direct sourcing, referrals, niche communities and agency channels, sustaining a 93% offer-acceptance rate.

- Partnered with the D&I team on sourcing and hiring programs, contributing to a 20% increase in women hired onto the Tableau Solution Engineer team.

RGF Professional Recruitment Japan

Tokyo, Japan

IT/Game Industry Consultant

04/2017 - 09/2021

- Ran end-to-end agency searches and business development in Japan's game industry, winning multiple retained search agreements with leading game companies.
- Ranked Top 5 biller (96th percentile) in Q1 2021 and Top 35 firm-wide in Q2 2021.
- Built non-traditional pipelines through tech schools, game academies, GitHub and ArtStation, adding 28+ qualified candidates, the most on the team.
- Built a Python/JavaScript outreach automation tool that cut team outreach time 30% and overtime by about 1.5 hours a day.
